

More Advanced Than A Weather Radio

The average weather alert radio only broadcasts alerts from the closest tower.

Weather Direct® allows you to receive weather alerts from your choice of any of over 60,000 locations.

You Choose The Alerts

Select to receive only the type of alerts that are important to you.

Audible Alerts ON/OFF

Turn audible alarms off when you don't want to hear them. Alerts silently scroll across the screen.

Works Even When the Power is Out

Receive alerts on your cell phone even if your power goes out.
